I am a Web and graphic designer with good usability and page performance experiences, who have worked for years for companies like Arkena A/S, Qbrick A/S, NASDAQ OMX, SF, Forbrugeliv.dk, Gavekortet.dk mm.

In order to achieve my goals within web and graphic design jobs, I am AP graduated in Multimedia Design and Communication, KEA in 2007 and have finished education within technical Bachelor and project manager certificated. I really have enjoyed being a part of this endeavor and have improved my IT skills and critical information management problems solving solutions. Since I worked with thousands of designs by looking on some of the factors that are important in creating web and graphic products. I have beed working on many layouts and achieved to create good looking visual hierarchy through size, color, contrast, placement of elements. And i looking forward to extend my skills and experiences within IT with competent colleagues and partners and web professionals.

Web design and usability goals: I want to make sure the site is easy to use! Everything important, should be just few clicks away! Importance of careful alignment of page elements to create unity on page design. **Graphic design goals:** Speak the user language! Be consistent! Everything should have a distinct look and purpose!
